APRIL 14, 2022

9:30AM-10:30AM

Supported by the office of
Students' Activities and the
Women in Science Club

A detailed illustration of a green and blue spotted salamander, likely a Hellbender (Cryptobranchus alleganiensis), is positioned in the lower right quadrant. The salamander is shown in profile, facing left, with its body covered in dark blue spots and blotches on a lighter green background. Its long tail is curled. The illustration is set against a dark blue background with stylized yellow and green leaf patterns.
